In your own words, explain why "Digital Literacy" is an essential skill for students in 2026

In 2026, digital literacy is essential because it is no longer just about using a computer; it is about critical thinking in an AI-driven world. Students must be able to verify the authenticity of information to avoid deepfakes and misinformation, protect their personal data against evolving cyber threats, and effectively collaborate using advanced digital tools to remain competitive in a rapidly shifting job market."
